

Results of the Masters Meet Held at Mission Viejo, March 4, 2006

February went out like a lion and came into March like a lion, but we lucked out again and had clear, sunny skies and temperatures in the low 60's for the 5th Annual Mission Viejo Masters Diving Invitational. Only 6 divers participated in an otherwise very low turnout, caused in part by illnesses and injuries to some mainstays, and probably due in part to problems being created between holding local SPA meets under either US Diving or AAU rules and sanctions. The format this year was a little different, using FINA requirements as a prelude to the FINA World Masters Aquatics to be held in August. Twenty-one thru 49 did 7 dives; 50+ did 6 dives.
