

DIVE SHEETS – No Hand-Written Forms!

The USA Diving Masters National Invitational Championships will be using DiveMeets.Com (www.divemeets.com). This is the same computerized meet management program successfully used at the 2005 United States Junior and Senior Nationals and the FINA Junior Pan Ams, in the middle of Hurricane Katrina, with a 3-day weather delay. The DiveMeets.Com program allows us to run a professional meet with less work, more efficiency, and accuracy.

In order to compete in the meets, you must be registered with DiveMeets.Com. There are NO Event Fees, for this meet only, as some of our USAD Budget money will be used to cover the DiveMeets.Com's normal event fees.

- ❖ Please register @ www.divemeets.com and complete your "dive sheet" for each event by entering your dive numbers in the order they will be performed
- ❖ You may register now and play, but you will not be able to enter your dive sheets until the time specified for each meet.
- ❖ DiveMeets.Com generates the DD and description
- ❖ The program will instantly check ALL of your dive sheets for accuracy and compliance with USA Diving's rules
- ❖ All dive lists must be entered, and changed for the last time, 24 hours before the first event.
- ❖ You may print your dive sheet(s) at any time @ www.divemeets.com
- ❖ You will be able to see the names and dives of others in each event
- ❖ You will still be able to change dives on the board or platform
- ❖ A back-up person will record the scores on the paper, computer-generated dive sheets, with no addition required
- ❖ You will receive a printed dive sheet, completely filled in with awards, etc. with your medal shortly after your event is over
- ❖ And, there are additional reports and analyses available for every diver, dive and judge

We're continuing to become technologically correct for the new millennium...

Let's Dive !
