**McAlister and Krahn Awards Winners**  
**(Jolly John Sable Awards)**

Awarded each year starting 1980, in loving memory of **Jolly John Sable**, to the male and female diver displaying outstanding performance in Masters **National** diving competition. The formula is based on number of events entered, plus dive average, plus 1/5 of current age, plus points for placing 1-6, plus 1 point for each diver beaten in one's age group. After winning twice in a row, that person must pass for a year before winning again. (See note below \*).

**Note:** Starting in 1998, the name of these awards was changed in honor of **Bill McAlister** and **Viola Krahn**, our two oldest active divers, in recognition of their respective contributions to the sport of Masters diving. It will hence be the **William V. McAlister** (for men) and **Viola Cady Krahn** (for women) **Award For Outstanding Performance In Masters National Diving Competition.**

[Note: **William V. McAlister** passed on in February 1999 at the age of 89. **Viola Cady Krahn** passed on in March 2004 at the age of 102+. Vi was inducted into the Masters Swimming Hall of Fame in 2003.]

\*[Note: As of 2006, these awards will be passed by the high point winners to the 2<sup>nd</sup> and/or 3<sup>rd</sup> place winners, as the case may be, who have never won these awards before. This is to prevent any two divers within an age group from repeatedly dominating the award. A diver may only win the award twice within their respective age group].

## RECORDS

The following are the most up-to-date records, compiled from the Historical Results of Masters National and International diving competition, as of **2015**. Any records set after the **2015** season will of course have to be reflected and made an ongoing part of this document.

There are a number of records reflected in this compilation, including **American, American National, American World, FINA, FINA World, Canadian and Canadian World**, as set in the respective meets. **FINA and FINA World records** are those set in either **Pan Am Masters, Masters World Aquatic Championships or Pan Pacific Games. Masters World Games** are a non-FINA sponsored event. American National records are those set by other than a U.S. diver. In some age groups the **FINA** format is one more or one less dive than the **US** or **Canadian** format, where indicated. US and Canadian formats are the same. As of **1998**, FINA tower rules for 50+ were changed to allow for feet first entries from 10 meter, with a 2.0 d.d. limit; and tower rules for **60+** were in 5 year age brackets. In the 2000 WMA, tower was in 5 year age groups from 25+, for that meet only, but now appears to be the norm for most FINA and WMG meets.

As of late 2002 and thereafter, the FINA format for FINA World Masters Aquatics will change completely, for both springboard and tower. There will be less dives on springboard and more on tower. See FINA Rules on the web site. As a result of these format changes, new records sections will have to be established reflecting these changes. See page xii for new records.

\*=FINA Meet Record; \*\*=FINA World Record (2008 are first time events).

[Note: Since the World Masters Games is not an official FINA event, but merely run under FINA Rules, and since it is run every four years, records set in these games will be different from official FINA meet records and listed separately as such. In 2005 the number of entries in the WMG was restricted, biasing potential records that could have been set with a full list of entrants.]
